  - Rational: Avoid cramming, but when necessary remember the following: Since your time is limited you have to choose what you study, don't attempt to learn everything, focus on things that will get you the most points on the exam; if time permits, try to get at least 3 hours of sleep (one sleep cycle) before the exam so that you don't fall asleep when taking your exam. Don't forget to set your alarm!
  - Inspirational: "Nothing can stop the man with the right mental attitude from achieving his goal; nothing on earth can help the man with the wrong mental attitude." –Thomas Jefferson

- If you need an invoice let Melissa know
- α One on one meeting with Chapter Presidents going on
  - Presidents are sharing information with Melissa that should be given during the Panhellenic Council Meetings by Panhellenic Delegates. Delegates should give reports in potentially four main categories, Service, Leadership, Scholarship, and Social to best represent what is going on in the chapters.
  - Come back to the next meeting with ideas about how to better give delegate reports to the council and better share information with the other chapters.
- α Fun Fact: What went on at the Greek Endeavor presentation last night?
  - Morgan won! Three groups presented ideas about changes and improvements in our Greek Community. The underlying theme was improving Panhellenicism and Interfraternalism, which takes work from each individual in the community. Talk of an All-Greek calendar, more focus on all campus service events, and other events that helped build the Greek community and the Centre community.
  - This was an important presentation because it talked about fostering Panhellenic spirit within the whole community and it is important for the Council to know what other Greeks are thinking about on these topics.
