- α Scholarship tip
 - Rational Tip: If you don't understand what your professor is saying, then raise your hand. A professor cannot read minds. It is up to you to let the professor know if he or she is communicating effectively. Asking questions is the most direct way for you to begin to understand the problem at hand. You paid for that seat in that, so use it. Don't be a passive listener. Don't just sit there taking a page of notes that don't make any sense to you. Raise your hand and ask.
 - Inspirational tip: "Tell me and I'll forget. Show me, and I may not remember. Involve me, and I'll understand." –Native American Saying

Vice President of Public Relations, Cornelia Gordon

- α Fun Fact: Who can name where the national or international Headquarters of your organization is and what the staffing is?
 - ο Emily Galt won because she knew the address of her International Headquarters! It's important to know where Headquarters is and how accessible your national organization will be if you need to contact them. Volunteers will be harder to contact than a paid staff person that is working in the Headquarters office.
